KOJO FILMS

WEDDING BROCHURE 2027

INTRODUCTION

Hi, we're Beckie and Trevor, and we are a (soon-to-be) husband and wife filmmaking team. We met in film school in New York, and instantly clicked over our shared passion for our craft. Two years ago we started our own production company, Kojo Films, with the goal of telling real, authentic stories.

We soon realized that this focus on authenticity and documentary storytelling would make for amazing wedding films, and we decided we need to take our craft to this space. So many wedding films we saw felt like they were made for social media, to showcase the filmmakers ability to create "trendy" shots rather than capture their couple's day in a meaningful and authentic way. We wanted to take a different approach; to capture the fun, energy, love and excitement of the day as it actually happens. The goal is not to perform, but to live. To create something for YOU, not for the algorithm.

Our wish is that you will be able to rewatch your wedding film for many years to come, and feel the emotions of the day all over again. We want you to be able to share it with your family and children, to show them who you are. We focus on capturing your story, getting to know you outside of the wedding day to learn who you are as a couple and translate that to your film so that years later, when your kid asks: "mom and dad, what were you like when you were younger?" you know just what to show them.

OUR MISSION

We don’t want to just shoot your wedding. We want to tell your love story.

We create wedding documentaries; films that explore your journey as a couple. We focus not only on telling the story of your big day, but also how you got there. From hearing the story directly from you and your soon-to-be spouse, to the voices of family and friends and the intimate, authentic moments that make up your special day together, we craft one-of-a-kind experiences which will portray your love like nothing else.

The result is not just a highlight reel, but a crafted heirloom - a film that is timeless, authentic, and deeply personal. It’s something that can be enjoyed for a lifetime, and passed down to future generations to let your story continue. Packaged in a unique, custom physical disk, you will walk away with a wedding film that you can treasure forever.

COUPLE’S FAVORITE - COUPLE SHOOTS

Every couple’s story is bigger than just the wedding day. That’s why we love spending time with you on a dedicated couple shoot.

We don't have a specific structure we follow and are happy to do any activities during your session that you enjoy or reflect you as a couple. From dancing along the coast of the Mediterranean, to jumping in Lake Huron, to simple activities like eating ice cream or watching the sunset; our couples have done many different activities during their couple shoots. During our initial calls, we will discuss with you what you would like to do during your shoot and will plan this fun session for the two of you!

COUPLES’ FAVORITE - NOSTALGIA

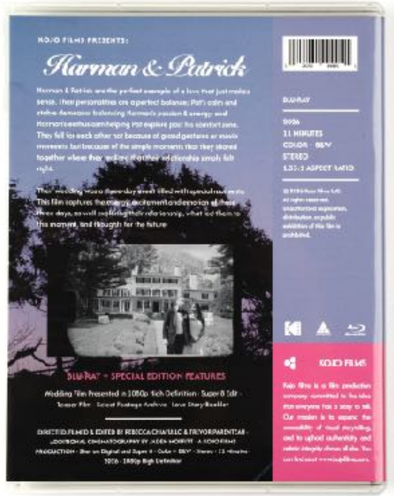

SUPER 8 FILM

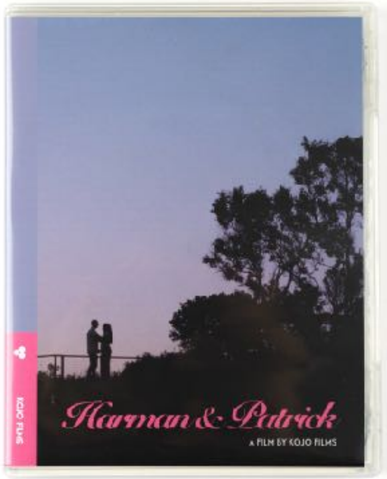

RETRO CAMCORDERS

We love incorporating mixed formats into our wedding films. In addition to our normal cinema cameras, we also offer super 8 film and hi8 video for a beautiful analog feel. Everyone gets excited when they see one of these cameras, and we find it’s a great way to capture truly authentic moments that feel timeless.

COUPLES' FAVORITE - PHYSICAL MEDIA

As avid physical media collectors, we think there is nothing like owning a physical copy of a film. We believe that priceless keepsakes such as your wedding film deserve to be placed on a shelf, not just kept as an mp4 that can easily get lost in your computer. That's why we design custom Blu Ray and 4kUHD discs for your wedding films, complete with custom designed artwork and a custom booklet that reflects you and your wedding. Not only is this a great way to relive your day in a different way, but makes your film into a physical keepsake you can treasure and share forever. We also can print additional copies for anyone in your life who would also like a keepsake of your wedding.
